

Loughborough Carillon Tower Cut-Out Model

Instructions

1. Cut out **shapes 1, 2 and 3**, taking care not to cut off any of the white tabs lettered A, B, C, etc.
2. Pre-score and fold the cut-out along the lines indicated by the arrows and between each of the tabs and the picture part of the shape.
3. Glue tab A behind the right-hand edge of the shape to create a rectangular tube.
4. Fold in tabs B and D and glue tabs C and E to them.
5. On **shape 1**, fold in tabs F and H and glue tabs G and I over them.

Instructions (continued)

6. On **shape 2**, fold tabs F, G, H and I along the diagonal side of the roof to create a triangular tab.

7. Glue tabs F and G behind adjacent roofs, and similarly glue tabs H and I behind their adjacent roofs.

8. Fold in tabs J and L and glue tabs K and M over them.

9. On **shape 3**, fold tabs F, G, H and I along the diagonal side of the roof to create a triangular tab.

10. Glue tabs F and G behind adjacent roofs, and similarly glue tabs H and I behind adjacent roofs.

11. Glue the two pictures of the cross together, back to back.

12. Finally, glue the bottom of **shape 3** to the top of **shape 2**, then glue the top of **shape 1** to the bottom of **shapes 3 and 2** combined, taking care to ensure that it is placed centrally and that the cross at the top is on the same side as the door at the bottom.
